

## MANITOBA

I was a teacher in Manitoba for decades. A part of MTS and now a part of the RTAM family. I still have deep connections to Manitoba and my teaching past, friendships and roots.

## ALBERTA

Moving to Alberta was made easier by our local Chapter which allowed me to stay in contact with other retired teachers and create new friends with Manitobans living outside the province. I look forward to empowering the same experience and helping Chapters grow while I serve the Board.

CALGARY, ALBERTA

## ABOUT ME

I have always believed in showing gratitude by giving back.

Our careers enabled us to build for the next step in our life's journey.

RTAM is a benefit that not many are privileged to enjoy. The Calgary chapter has played a significant role in my move to Calgary.

Being in Alberta was important to me when I retired to be closer to most of my children and grandchildren. I feel very thankful to be closer to them to watch them grow and be a part of their lives. I have also discovered a whole new life of hiking in the mountains and travelling with new friends.
