WINNIPEG*

ABOUT ME

I have been an educator for 45 years in various capacities: classroom teacher, Department Head, School Administrator, Division-wide Consultant, and a Consultant with the Department of Education. I have leadership training and have volunteered in many education-based committees as a Chair and a Committee member. I have also volunteered on several community organizations on various Executive positions including President.

I believe in the growth of all members of the community including Board and committee members. I use strong interpersonal skills to develop collaborative working relationships with tact and diplomacy when working with colleagues and thus develop trusting relationships.
